Hyperion Tabletop Exercise 11/10/21

Would you kindly join the exercise as a participant?

As part of our annual wet weather preparations, we plan to test the functionality of the gate at our 1-mile Outfall. Prior to that test, we are holding a virtual tabletop exercise with community partners, city and county departments, NGOs, regulators, and other stakeholders.

During this exercise, we will explain how and why we test the gate, present communication protocols and standard operating procedures, define the role of each stakeholder, review emergency communications, talk through 3 scenarios, and wrap up with finalization of plans for the actual exercise tentatively scheduled for November 17-18, 2021.

As an active participant, you will take part in robust discussions about our operational and communications procedures. **The exercise will be Wednesday, November 10 from 10:00am to 12:00pm via Zoom.**

[PLEASE CLICK HERE TO REGISTER YOUR PARTICIPATION](#)

Kindly note that this is an invitation-only event and participant substitutions must be requested in advance in writing. We reserve the right to cancel unauthorized registrations.

We heartily thank you in advance for assisting us in updating our policies and procedures while lending your experience and suggestions to ensure that the actual gate functionality test goes smoothly.

Together, we will better prepare Hyperion Water Reclamation Plant for resiliency and unforeseen emergencies. To learn more about the plant, please visit [Hyperion's web page](#).

We protect public health and the environment.
